

ASSESSMENT ANSWERS

Experience:

1. Data Visualization Tools:

Yes, I am familiar with data visualization tools such as Power BI and Tableau. I have 6 months of experience using these tools, primarily in personal projects and academic settings. My experience includes creating interactive dashboards, visualizing complex datasets, and presenting data insights effectively.

2. Scikit-learn:

I have 1 year of experience working with Scikit-learn, building and evaluating machine learning models. My experience includes tasks such as data preprocessing, model selection, and hyperparameter tuning, primarily for academic projects and personal endeavors.

3. Python:

I have been working with Python for 1 year 6 months, with a focus on data analysis, machine learning, and data visualization. I have applied Python extensively in various projects, including [specific projects or examples relevant to your role].

4. Flask:

I have 1 year of experience working with Flask in academic projects and personal projects. I have used it for developing lightweight web applications, creating APIs, and deploying machine learning models.

Education:

1. Academic Background:

I am graduated in Artificial Intelligence and Data Science from Priyadarshini College of Engineering, Nagpur. My coursework and research focus on data which includes data science and data analytics with the integration of Artificial Intelligence.

Behavioral:

1. Weekend Work:

Yes, I am open to working on weekends if necessary.

I understand the importance of deadlines and am willing to contribute extra time when required to meet project goals.

2. Interesting Fact:

One interesting thing about me that's not on my resume is my passion for featuring data into impactful visual insights and teamwork.

3. Strengths and Weaknesses:

My biggest strengths are my attention to detail, strong problem-solving skills, and ability to work collaboratively. One area I am working on is time management.

4. Interest in Position:

I am particularly attracted to this position because I am currently focusing on data analytics and their tools and also I've done projects in this field . I am excited by the opportunity to integrate data into impactful visuals and my skills that shows interest in cutting-edge technologies .

5. Location:

I am currently located in Pune, and I am open to relocation or remote work as needed.
